Matching and Weighting

YouGov Polimetrix interviewed 1703 respondents who were then matched down to
a sample of 1500 to produce the final dataset. The respondents were matched on
gender, age, region, education, and political interest. YouGov Polimetrix then
weighted the matched set of survey respondents to known marginals for the
general
population of Canada from Statistics Canada.  Those marginals are shown below.

Age: 18–34: 29.24%
     35–54: 37.92%
     55+:   32.84%

Gender: Male:   49.14%
        Female: 50.86%

Education: HS or less:       47.46%
           Some College:     33.74%
           College Graduate: 12.04%
           Post–graduate:     6.76%
```
